

Child Care Facilities Revolving Fund Architect's Cost Estimate

Project Number	Agency Name, Facility Name and Facility Address
Architect's License Number	Architect's Name, Company Name, Address and Phone

The following is the project architect's estimate of what the project will cost. The amount of the final fund release will be based on the architect's certification of final costs after the project is completed.

- CCFRF funds may be used for the purchase, transportation, site preparation and installation of a new relocatable facility, including architect fees, inspection fees, and site preparation.
- CCFRF funds **may not be used** for administrative costs, furniture, equipment, or playground equipment. These ineligible items should not be included in this cost estimate.
- Include justification for the contingency allowance (if known), snow load allowance, and any unusual costs that are anticipated at this time.

Note: CDE will pay a maximum of \$120,000 for the relocatable building and site development costs, a maximum of \$10,000 for the contingency allowance, and a maximum of \$10,000 for the snowload allowance.

	Cost of Project
A. Relocatable Building - includes relocatable building, restrooms, cabinet and sink, delivery, and installation	\$
B. Site Development	
1. Architect and engineering fees	\$
2. Site development (site grading, water, sewer, electrical, and fire alarm)	\$
3. Site improvements (e.g. playground fencing and shade structures)	\$
4. Inspection fees, testing	\$
5. Total Site Development (sum of B1 through B4)	\$
C. Total Relocatable Building and Site Development (sum of A and B)	\$
D. Contingency Allowance - <i>Attach justification if known</i>	\$
E. Snow Load Allowance - <i>Attach justification</i>	\$
F. Total Project Cost (sum of C, D, and E)	\$
